2024-2025

Meta Full Stack Developer

Coursera • Issued by Meta

Covers: React, Node.js, Express, REST APIs, PostgreSQL, Deployment

Experience

Support Associate

Zippe (Oct 2023 - Nov 2024)

- Delivered customer support via chat and phone for technical issues
- Documented bugs and user reports for the dev team
- Acted as a communication bridge between users and engineering

Website Developer

The Integrty – Advertising & Marketing Firm (Aug 2025 - current)

- Built and maintained responsive websites using HTML, CSS, JavaScript, and PHP.
- Worked on UI/UX improvements, SEO optimization, debugging, and website performance enhancement.
- Collaborated with cross-functional teams and assisted in deployment, hosting, and analytics integration.
- Used Git/GitHub and CMS platforms like WordPress and Shopify for development tasks.

Projects

Nitara Jewels Website

https://event-finder-rust-psi.vercel.app/

- Developed and managed a live jewelry e-commerce/business website.
- Implemented responsive layouts and optimized user experience across devices.
- Worked on website customization, performance optimization, and SEO-friendly structure.
- Assisted with deployment, maintenance, and content updates.

Vision World

https://www.visionworld.in/

- Built a full-stack app with React, Tailwind CSS, Node.js, Express, and MongoDB.
- Developed RESTful APIs for full CRUD functionality and database integration.
- Designed responsive UI with React Hooks and reusable components.

Chat Assistant (AI Voice Assistant)

https://github.com/Ayushdubey5/Voice-assistant-using-Python

Python-based smart assistant leveraging OpenAI, speech recognition, and text-to-speech (TTS). Supports voice-driven automation, natural language responses, and execution of basic system commands.

Doc-QA - AI Powered Document Q&A Application

https://doc-qa-six.vercel.app/

AI-powered document Q&A app with React frontend and serverless APIs using OpenAI. Supports file upload, vector embedding, and intelligent answers via RAG technique.
